You will soon receive new information regarding GPRS and GSM-SMS modules for our new products MAGB1 and MAGX2 during October 2010. Projects related to individual, customised services can be discussed with our export manager Francisco Pacheco.

Email: francisco.pacheco@arkon.co.uk

Vietwater 2010 in Ho Chi Minh City, Vietnam – 10th – 12th November 2010

We are planning to exhibit our products MAGX2 and MAGB1 at this exhibition together with a second party, Bannow Exports Ltd. Further information will follow during October 2010. Please, contact our sales department if you plan to visit this exhibition or if you want a personal contact to obtain technical or sales training. Email: office@arkon.co.uk or francisco.pacheco@arkon.co.uk

WWEM Exhibition in UK 10th – 11th November 2010

You can visit our stand No. 120 at the Water, Wastewater and Environmental Monitoring Conference, Exhibition in Telford, UK. We will exhibit our new products MAGX2 and MAGB1. Individual technical and sales presentations can be arranged. Please contact our sales department in advance

New product available during December 2010

It will be a stand-alone version of flowmeter. This version does not need a transmitter and can be operated on its own. If you need a low cost flowmeter without read out on display and outputs, this will be the right one!!

More information will follow in November
